SKILL HIGHLIGHTS

- Advanced SQL querying & programming
- Query Performance Tuning
- Store Procedure, SQL Joins
- SQL UDF Function
- Error Logging & Handling
- Manual & Automation Testing
- Knowledge Automation Tools
- Database Testing

TECHNICAL SKILLS

- SQL Development & Support
- T-SQL
- SQL Server Management Studio 2019, Oracle, My SQL
- Java
- Selenium Web driver
- Linux
- Git Hub repository
- SDLC, STLC
- Automation Testing using

LANGUAGES KNOWN

- Odia
- Hindi
- English

HOBBIES

- Playing Chess
- Dance
- Designing Craft
- Willing to learn new things

SUBHADARSHINI ACHARYA

SUMMARY

Experienced and dedicated SQL developer using SQL Server Management Studio

- Highly analytical candidate with extensive and progressive experience in the design, development, and management of application systems. In-depth understanding of data modeling and ER design.
- Solution oriented working with teams and demonstrated excellence in building store procedure, creating user define function, advanced script and programming. Excellent written communication and interpersonal skills.

EXPERIENCE

SQL Support and Software Testing Intern (Manual and Automation)

(Wavelabs Technologies India Pvt Ltd (A Unit of Westagile IT Labs India Pvt Ltd.), Bangalore, India / June 2023 – September 2023

- SQL Support in store procedure complex query writing, validating data and job Monitoring Control-M.
- Conducted manual test execution for multiple applications, ensuring quality standards.
- Assisted in creating and implementing automated test scripts using Selenium and Hybrid framework.
- Collaborated with teams to identify and track software defects for timely resolution.
- Knowledge on ABot and Wire shark tool and 4G and 5G Core domain.
- Developed an automation script, reducing testing time by 30%.

EDUCATION

Post Graduation
Course: MCA(Computers)
College/University: FAKIR MOHAN UNIVERSITY

CERTIFICATION

Software Testing Database, Manual and Automation
(Naresh IT, Hyderabad)

PROJECT

Advanced SQL Programming
Created numerous simple to complex queries involving self joins, correlated sub queries, and CTE's techniques for diverse business requirements. Tuned and optimized queries by altering database design, analyzing different query options, and indexing strategies.

Automation Testing (SELENIUM Using JAVA)
Application Name: HRMS
Description: HR management portal (HRMS) is the comprehensive solution for the efficient management and development of Human Resources. It will assist you in the complex and strategic process of managing this crucial resource of your enterprise. Based on modular architecture, it facilitates a vast range of HR activities, with features that reflect the main HR management activities.
Role: Building Hybrid framework, writing automation test scripts, generating logs and generating test reports, reading test data build configurable project
